The first business in order after the organization was the appointment of committees to consider and present to the Convention such alterations in the constitution as would best effect the desired object. Some discussion sek place as to whether one committee of fifteen should e appointed to perform the whole work, or smaller tees on different subjects. It was finally deed to adopt the latter plan.

This completed the second day's business, as nothing ould be done until the committees had time to prepare

rush the thing through yesterday; but the older and
wiser heads objected to such rapid legislation, and asked
for time to consider if there might not be some alterations and improvements made in wording the ordinance.
Mosers. Bush, Baltzell, Davidson, Walker and others
advocated the commitment of the ordinance to the Judicial Committee, which was finally done, after it was
found, by a vote of the House, that four-fifths of the
delegates were not in favor of waiving the rules.

SATURDAY, Oct. 29, 1865.

Soon after the opening of the Convention this morn-ing a resolution was introduced petitioning the President behalf of Jefferson Davis. As this was deemed insufficient to cover the whole ground it was laid upon the of five be appointed to memorialize the President in be-balf of Jefferson Davis, and Messrs. Mallory, Yulee and s-Governor Allison, of Florida. Mr. Mallory is confined in Fort-Lafavette, and Messrs. Allison and Yulee in Fort Pulaski. As the President has already extended clem ncy to Mr. Trenholm, Secretary of the Treasury; S. C. leagan, Postmaster General; Mr. Clark, Governor of Mississippi, and Mr. Campbell, formerly one of the Jus-tices of the Supreme Court of the United States, it is con-sidered no more than just that the same elemency should who have committed no greater wrong towards the United States government, and who doubtless repent of MR. was President of the State Senate, and the death of the Severnor made him by the laws of the State Governor pretem. He had only held the office a few weeks when the war closed. He has already been in prison for a longer period than he held the office of Governor, and as he took no active part in the war it is a matter of surprise to the people of his State why he should be longer detained when others much more objectionable have been released.

ADDITION OF THE ORDINANCE NULLIFYING SECRSSION.

Mr. Bush, Chairman of the Judicial Committee, to whom was referred the ordinance annulling the ordinance of secession, on yesterday made the following

Whereas the people of the State of Florida are anxious in good faith to restore the State to her former peaceful relations with the United States, therefore,

Be it ordained by the people of the State of Florida, in convention assembled, that the ordained adopted by the convention of the people on the 10th tay of June, 1861, haven as the Secossion ordinators, be and the same is hereby

convention of the people on the 10th day of June, 1861, hown as the Secession ordinance, be and the same is hereby answiled.

Mr. Coulter, of Levy county, moved to amend by substituting "is null and void from the beginning" in place of "annulled." Mr. Coulter said that the doctrine of eccession had brought desolation and rain upon the whole South, and that he fer one wished to repudiate it and never to hear the word secession again.

The amendment was lost—yeas 9, nays 35.

Another amendment was then offered, to substitute 'null and void' in place of "annulled," which was supported by Mesers. Walker, Magbee and Coulter. Mr. Bush, chairman of the committee, said the wording of the ordinance had been carefully considered by the committee, and that they had come to the conclusion that "annulled" was the best word they could select to convey the idea intended; that the signification of annul and null and void was the same, according to the minds of the committee, and in order to put a stop to all this discussion he should vote against all the amendments effered, and for the ordinance as reported by the committee. He said that he had never believed in the right of secession, and he thought the ordinance as reported the proper one to prevail.

Mr. Davidjau also supported the ordinance as seported, giving as his reasons therefor that the words annul and null and void were synonymous terms; that according to the definition of the word given by Webter, annul meant, "to abrogate," "or vender null and void." Upon the vote being taken it was carried unanimously, with the exception of Mr. Coulter, who voted in the negative, not because he opposed the ordinance, but because, according to his Ries, it did not go far chough to come up to what he considered the drivent of the secession ordinance would be misunderstood.

This made the whole thing unanimous. Governor Tarvin in his message recommended the adoption of the

This made the whole thing unanimous. Governor flarvin in his message recommended the adoption of the ordinance in accordance with the amendment offered by Mr. Coulter; but to pass it in that form would be, in effect, a stuling themselves and admit that the oceans of bleed and treasure expended during these four years of herrid war had been without the semblance of reason produce. This they are as yet hardly ready to admit.

TABLES TO GOVERSOR MARVIN AND GENERAL FORTER.

A resolution was passed, offered by Mr. Wright, as follows:—

Resolution was passed, oliered by Mr. Wright, as fellows:

Received, That the thanks of this Convention be tendered to his Excellency William Marvin, Provisional Governor, and to Major Geograf Foster, United States Army, for the facilities afforded by shem in the assembling of this body, and that they be invited to a seat on the floor of this Convention.

Mesers Wright, Bush and Maxwell were appointed a committee to notify Governor Marvin and General Foster of the adoption of the resolution.

The Convention then adjourned till Monday morning at nine o'clock. It is expected that the coming week will complete all the work of the Convention at this time, and that they will then adjourn to meet again if accessary.

presented as is generally found in bodies of like character.

The utmost harmony has prevailed thus far, and the members, without exception, express themselves as acting in good faith towards the government of the United States, and as being really desirous of burying all past differences and dissensions, and returning to live at peace once more beneath the protecting folds of the old flag. There has been far loss trouble in Florida between the attracts and United States soldiers and with the freedmen shan in any other Southern State, and the state of feeling, so far as I have been able to judge, is better than in most States. There is no more delightful or salabrious alimate in the world than is to be found here, and there is plenty of room for as many more settlers as may be desirous of testing the raising of cotton by the new system; and I am assured that the people of the State will gladly welcome all who may desire to come.

provision, as you will see, has been made for any emergency.

Hon. Herschel V. Johnson, President of the Convention, took leave of the body in a most patriotic and touchingly eloquent address, which was listened to with profound attention and deep feeling. By a unanimous vote of the Convention it was ordered to be spread upon the journals. The speech was delivered too late for a verbatim report to be forwarded to-day, but I shall send it by to-morrow's mail. Coming as it does from one of the first men of the nation, and breathing the conservative and conciliatory sentiment of the intelligent and particular masses of this people, it should be read and considered by the people of the Northern States.

THE CHOLERA.

Two Additional Deaths on Board the Atfrom Marseilles, in Quarantine.

Two deaths occurred on board the Atalanta on Mo neither, however, from cholers. One, a cabin passenger, fell a victim to consumption, which disease had been preying upon him for some time. Had this gentleman een on shore and able to procure the best medical advice, together with pure air and proper diet, it is improbable that his death would have occurred so soon. The other person who died was one of the steerage passengers. His death was owing to an attack of pieural pneumonia, heightened, if not induced, by the chlorine gas used in the attempt at disinfection. Nothing has as yet been done towards bainging the well passengers off the Atalanta, or towards providing a hospital for their temporary residence on Sandy Hook. vice, together with pure air and proper diet, it is impro-THE BARK DIADEM.

Dr. Burceu, one of the quarantine Commissioners, re-ports that the bark Diadem, from Marseilles, has been detained by him in quarantine. The crew were in a healthy condition and no cases of cholera had showed themselves since she left, but as the cholera is at present committing great ravages in Marseilles, the port from which she started, it was thought advisable to detain and have her thoroughly furnigated. THE FORTY SEVENTH REGIMENT.—A battalion drill of the right wing of the Forty-seventh regiment, National Guard, took place at their new armory, in Fourth street Guard, took place at their new armory, in Fourth street, E. D., on Monday night, Colonel Messerole commanding. The troops were exercised in the various battalion movements. One feature of the occasion was the exercise in the manual at the sound of the bugle. The troops acquitted themselves with credit by the strict attention they paid to the instructor. Spectators were admitted, which was the cause of a large assemblage of the friends of the Forty-seventh, among whom were a large proportion of the fair sex of the fashionable circles of the Eastern District. The drills of this regiment are very popular, and will be repeated at intervals during the winter season.

ROW AMONG THE DIRECTORS OF THE BROOKLYN ACADEamong the directors of the Academy of Music, at the pears from the facts that have come to light that the Young Men's Christian Association made application to the directors for the use of the Academy for the purpose of hearing a lecture from Fred Bouglass. Some of the members of the Executive Committee objected to the petition, on the ground that to grant the application would be a dangerous precedent, as Mr. Douglass was a negro, and if he was permitted to lecture in the Academy any other negro could demand the same privilege, and applications would be made ad infanitum to hold negro conventions, negro balls, negro fairs, &c., which would be damaging to the character of the building and cause great loss to the stockholders. The abolition portion of the committee took a very different view of the subject, and thought a distinction could be made between respectable negroes and common darkies. The application was finally refused.

Melancholy Science.—Mr. James Hughes, a respect able citizen of the Eastern District, residing in Ninth street, near Ainstie, committed suicide under the most melancholy circumstances late on Monday evening. For some time past he has been laboring under great mental anxiety, on account of the lil health of his wife, to whom he was devotedly attached, which caused alarm among his friends. This and other suspicious circumstances caused a partial watch of his movements; but he cluded he vigilance of his family. On the evening stated he went into his parlor and deliberately discharged a pistol, loaded with buckshot, into his heart, causing instant death. It is said that on the day before his death he visited the Cemetery of the Evergreens, at East New York, and selected a spot for his grave. He was fity-seven years of age, and leaves a wife and three grown up daughters.

The stills are located upon the bank of the river, and shipments are made from the bank upon the deck of the vessel, and supplies are received from the vessel into the storehouse, which saves great expense in hashing.

The place is within 35 miles of Mobile, which can be reached, business transacted and return by 10 c'clock at night; and distant about 170 or 180 miles from New Orleans-an inland and safe usvication, requiring no insurance upon shipments—the best and cheapest breadstuils and provisions market, where cashs and all the materials for carrying on the business can be obtained; and was, and I presume will be again, a good market for spirits and rosins, but If the prices prevailing there did not justify shipments, they could be made to any other part of the world.

These Lands boing intersected by many streams, there is greater protection against fires.

The health of the country is excellent. The water courses abound in an abundance of fine fish and oysters. Very good range for cattle and long. bound in an abundance of line list and oystors, very good range for cattle and logs.

The improvements consist of a frame dwelling, with four come below and two above, painted kitchen, meathouse, toreroom, a two story warehouse, hospital for the sick, a

There is a good site for a saw and grisk mill, with a rock foundation, or cotton or other manufactory.

The present high prices for naval stores, and the probability of their continuance for some time, on account of the scarcity and the decreased production for the future, so many places having been burned up, will cause a place like this, with so large a quantity of unboxed timber and so ellegibly located, to be eagerly sought after. I deem it needless to say more, as the purchaser will examine the promises and acquaint himself with its numerous advantages.

The attention of capitalists is particularly invited to this very desirable property, admitted to be the best location is all respects for the business to be found anywhere.

Applications for terms may be made to me by letter addressed to Uniontown, Ala., until February next; then to Wilson, North Carolina; or to Mr. JAMES A. WEMYSS, of Mobile, Ala., during my absence from the State. Early application is solicited.
